OFFICE OF THE MORNING HERALD
Titusville, Monday Eve, Oct. 30, 1865.

The market for money on Friday, says the New York World, was easier to the Stock Exchange than for several days previous, but at the full rate of 7 per cent on call. The discount brokers report a continued very full demand at from 7@8 up to 10 per cent on merchant paper 60 days to 4 months. The movement of cotton from the South to the Northwest is employing a large amount of both Currency and Short Merchant acceptances.

On the Stock Exchange the Government bonds were 1@1/4 ¾ cent weaker than on Thursday. On other days then the market was steady, with an increased demand for the 7-30 ¾ cent currency loan. The Railroad speculation continue upward and very strong as will be evinced on Erie Shares, at the 5 ¾ cent advance of Thursday. At one time there was an additional advance of 2 ¾ cent, placing the sales at 84 ¾ cent. The bulling then turned downward to 83 ¾ an hour after recited a second time to 83 ¾ cent. It was found at the close of delivery hours, 2 to 3 M. that the cash stock was scarce, notwithstanding the long interest to deliver the 13 previous to redemption of the 1st of November. It was further reported that foreign account had bought on Saturday a quantity of stock and that there was still to the amount of 60 to 80 thousand shares to be taken up on account of the other side, which would have to be taken within the coming three days. In view of this fact, that the calculation we assume to be independent of the *pre-focus* purchase and resale of 25,000 shares previously held under hypothecation between Mr. Drew and the Company in the 1st of September. It is privately stated that since the negotiation of $500,000 Convertible Bonds, that this stock is to be taken up by the Company and cancelled. For a full explanation on the subject see its been made.

At the close of business the Railroad speculation was less active and it ran off the market.

Petroleum stocks were firm at the first Board. Bid and Ten dollars higher. At the second public Board Pithole Crude closed at $2. Buchanan Farm sold at 95. Cherry Run (30) sold at 1 cent. Oil Creek Mill Creek $2.30. At the second regular Board United sold at $1.02. Brilliant sold at 95. Rockwell Run $14. Bailey $1.10. Webster $1.10.

PETROLEUM MARKETS

TITUSVILLE Monday Eve, October 30

Out of the wells is full a month of time there is a right purchasers to any extent. 1,000 bbls at 2 to 3 bbls from on Saturday. Buyers in varied day of the week market holding all in expectation that it will, I want tangible figures. The transaction are light except of the under exchanging the oil way in dull and quiet. It is very only 90 the report of for receipts on Saturday.

OPEN DAY AND NIGHT

VERY LATEST NEWS.

(Special to the Morning Herald.)

PITTSBURGH, Oct 30—6 P M

On Sunday night four young men hailing from Buffalo, were caught rifling the trunks in the boarders of the Hulbs House. They were conveyed to Franklin on day in irons.

The tenant well, notwithstanding its unfortunately fired, declared a dividend of $42,000, on the hole, for the month of October.

Oil to day brought $9 50 per barrel.

Later from Oil, 30

Oil is dull. Sales two thousand barrels. Production 9,000 barrels.

New wells are going down on the hill side and are now from three to five hundred feet deep. One on lot No. 254, from which we expect to hear favorable report soon.

A company from Rochester are testing two wells on the Blake 250 feet above the level of the Creek, with a good show and promise good wells. They are from 600 to seven hundred and fifty feet deep. STEREOSCOPE

NEW YORK, Oct 30

The Tribune's Washington special says:

Chaplain French who has recently travelled extensively in the interior of Georgia, addressing twenty fifty thousand freedmen and many thousand whites as to their relative duties to date. He reported a cut distribution among many thousand freedmen and especially among those who had left the State by force and then abandoned by their former owners on the surrender of the rebel army. Many citizens are glad that slavery is done away. The excess of freedmen above the ability of planters to employ or support is causing great embarrassment, and threatens serious trouble unless relief in some form is furnished. He recommended that homesteads on the public lands of Florida might relieve many thousands. Several men high in authority here are under tow to favor this plan. The freedmen generally plead for schools.

Chaplain French has been to commissioner Howard by order of the President at the joint request of Gens Sherman Saxton and Gillmore, and on arrival reported to Gen Howard. He says North to prevent the wants of the freedmen.

The receipts on Internal Revenue on Saturday amounted to $1,085,485 06.

The following important order, relative to the mustering out of the Veteran Reserve corps was issued on Saturday. The order appears contemplates the retention either in the military or civil service, of all who desire it, whose services will contribute thereto the favorable consideration of the government.

WAR DEPARTMENT ADJ GENERAL'S OFFICE
Washington Oct 6, 1865.

Order No 116.

In view of the very numerous and pressing applications for discharge by members of the Veteran Reserve Corps, Department the commanding will cause all officers of that corps within the geographical limits of their command to be provided by a general or general staff officer as soon after the receipt of this Order as possible. Any General or general staff officer on duty within the limits of the Department, whose services can be spared, may be detailed for the purpose. The officers will question each officer of rolls of men now in his district to which he is to be discharged, or to remain in the service, and will make out separate lists of those who wish to be discharged, and of those who wish to remain in the service. Each list will then be read to the officer to and men who will have an opportunity to correct it, so that it will be a true expression of their wishes on the subject. The officer will visit all those who may be absent on the parole and in a similar manner obtain their wish—and enter the names on the proper rolls. The rolls of commissioned officers and men who wish to be discharged will then be turned over to the Commissioned Mustering, who will at once muster out the officers thus whose names are on the rolls of such as desire discharges. He will obtain from a general or general staff officer on duty the rolls of those desiring to remain in the service, so as to exhibit their rank and give of the ability. These rolls, when completed, will be transmitted to the Adjutant General. The names of officers and men belonging to the different companies or regiments will not be lost on the same rolls in any of the above cases. The rolls of those who wish to remain in the service as well as those who wish for a discharge, will be made on the prescribed blanks for muster in or discharging rolls, and will contain full information according to the form of the Muster Department. Commanders will see that this Order is executed with promptness. By order of the Secretary of War.

(Signed) J. B. FOREMAN, A. A. G.

NEW YORK, Oct 30

The St Thomas correspondent of the Herald, under date of Oct 7th, states that the U S gunboat Kansas, Lieut. C. H. Wells, Commanding, arrived there on the 6th inst from Cape Haytien. The Kansas left Philadelphia on the 5th of August, and arrived at the Cape on the 14th remaining there until the 2nd inst. In consequence of matters connected with the Revolution, which has since terminated with the understanding that the town shall be given up to President Geffrard. This arrangement was brought about through the action taken by the U S Consul, who was at one time in some danger through the savage treatment of the insurgents under Salnave who held the town.

Capt Wells assured the Consul to notify those who considered themselves the authorities that retaliatory measures would be taken should any insult be offered to the American flag through the person of their Consul or otherwise. He also notified them that he would hold said authorities to account if they continued to take coal belonging to the U S Government.

The Captain of the British Gunboat Racon cooperated with Captain Wells in this matter.

The town of Cape Haytien never contained more than five hundred insurgents and the insurrection was confined within the limits.

Capt Wells thinks that 2,000 disciplined men could have taken it at any time. In fact the attempt at revolution is regarded as a very contemptible affair. Salnave is said to be the man who shot at and wounded Geffrard, Minister of State, for which crime he had to descend beyond the seas, hence his hatred of the Geffrard government.

When the Kansas left Cape Haytien, the U S steamers Dakota, Capt Walker, and her Brittanic Majesty the Bull Dog, were in port.

Washington, Oct 30

It appears from private information from North Carolina that not more than two of the candidates for Congress in that State, if elected, can take the prescribed oath that they have never voluntarily aided the rebellion.

There are apprehensions of a dearth of food in North Carolina before the next crop is secured. The present crop is injured very materially by the protracted drouth which has prevailed. The crops have been very limited in some parts of the State, where there were military operations on a large scale.

Bill Posting and Distributing.—All orders for Bill Posting and Distributing left at this office will receive prompt attention.

C. H. Jaggs & Co., opposite the Chase House, are agents for the sale of The Herald in Pithole City.

Titusville and its Future.

The wonderful change which has taken place here during the past three years is well calculated to astonish even those who are familiar with the rapid strides of civilization in our most western States, whose cities are improvised and commerce created in the short space of a few months. Titusville can now boast of stores and private dwellings which would do honor to almost any provincial city. The stranger visiting here for the first time is surprised to find on every hand not only all the comforts of the larger towns, but most of the elegancies of polite life as they exist in the more refined circles of the metropolis. In sauntering through the upper part of the city, one is struck by the charming and cozy little cottages surrounded by neat lawns, the residences of our thriving citizens, many of them, built of brick and elaborately ornamented, give ample token of wealth and affluence.

We are of those who believe that Titusville is destined, at no very remote future, to be the centre of a commerce which will astonish the most sanguine of her well wishers. We notice already in strolling through the streets, a movement and activity to be seen in no other city of the same size. Everybody seems in a hurry, they have more business than they can transact, and the new comer, whether he bring brains, capital or labor, is joyfully welcomed in the race after wealth. There is enough for all. We hear of railroads and projected railroads—all tending toward this point. Here will always be the great exchange for the products of our wells. If we look at the statistics, we find the modest beginnings of three years ago swollen into a stream of wealth which has become of vast importance to the nation at large. The daily financial transactions, if they could be correctly estimated, would give us some very useful data on which to predicate the future growth of this place by comparison with the past two years.

Settlements such as Pithole, *sprung* up like a mushroom in the night, are simply suburbs of Titusville. They tend to swell her commerce and wealth. Whatever is bought, sold or consumed in these places, must first go through the hands of factors or commission merchants here. The production of oil has now become a regular and steady business, emulating the immense coal interests of this State.

We expect to see new buildings started in every direction next spring. We know of capitalists who are only deterred from immediately building by the high price of materials and labor. If these do not come down by May next, buildings can not be any longer delayed—they must go up at present prices. This same difficulty of high prices is keenly felt both in New York and Philadelphia. At this present moment there are not buildings enough in this place to accommodate comfortably the permanent residents, not to speak of the floating population.

But what Titusville most needs is to mend her ways. In no other place of its size and wealth would the inhabitants for one moment tolerate the wretched mud-holes which are here dignified by the name of streets.

Ed. Darrow, Charged with Highway Robbery, Examined and Committed.

We stated yesterday that Ed Darrow had an examination on Saturday, before Justice Strowbridge, of Cherry Tree township, under the charge preferred by I J Mansfield that he was the person who robbed and shot him on Sunday, the 22d inst, a few miles from this borough, that Darrow had been discharged, that on Sunday he was again arrested, and that his examination would take place on Monday at Pleasantville.

Accordingly, the prisoner, in custody of Chief Cannell and detectives Davis and Walsh, was conveyed to Pleasantville yesterday, where an examination took place before Justice James L. Connelly.

The prosecution was conducted by B S McCallister, Esq, and the defense by F B Guthrie, Esq., both of Titusville. The complaint was as follows:

Venango County, ss

Personally appeared before the subscriber, a Justice of the Peace in and for said county, George C Bartlett, who, being duly sworn according to law, deposeth and saith That on the 22d day of October, A. D 1865, at the township of Cherry Tree, in the county of Venango Pennsylvania, I J Mansfield was robbed of $12 in bank bills and $2.50 gold piece, two twenty five cent pieces of silver coin, two pocket books and one silver watch, all of the value of $50, and that this deponent has just reason to suspect and does believe and suspect that E Darrow did rob and steal the moneys and property aforesaid then and there from the person of said Isaac J Mansfield, to wit: with intent to kill the said Mansfield with a double-barreled pistol—all of which this deponent believes from general information

Sworn and subscribed before me, October 30, 1865. JAMES L CONNELLY, J P

The plea of the prisoner was "not guilty"

I. J. Mansfield, the complainant, being sworn, testified as follows I left the place where I had been stopping on Sunday afternoon on my way to Rochester Coming down the hill (Griffith's) I saw a man ahead with his hands in his pockets, looking towards Titusville. I had a carpet bag over my shoulder As I came near him, he suddenly presented a pistol to my breast and demanded my money I handed him my pocket-books—two of them He asked me if that was all I had. I said I had a watch I took it off and gave it to him He asked me for more. I said I had no more He swore that I had. All the while he was grasping my arm He said he wanted me to go the woods with him I told him no He said I must I said I wouldn't He pistol was in his hand, which was dropped at his side. I seized it, and then broke loose from him, and ran through the brush. He shot me in the shoulder I then scrambled along He shot me again in the hip. It did not hurt me much I kept running, and when I got about one hundred yards off I met a Mr. Purcell I told him I was robbed and shot. I hollered, and so did he A number came up. Purcell went back, and I followed. I was out of breath We met three men on horseback. One ran back to the place where I was shot, and found my carpet-bag; it was torn open, but nothing taken out. I have seen the person who shot me since It was on Friday last in a shanty on Spring street, where government stamps are sold. I saw a man covered up, except his head and hand, and I recognized him by that I stood by he asked me, and I saw him in the face, and I knew that he was the man. I went for the Chief. The man had gone into a saloon, where the Chief found him. I saw the man here now. That (pointing to the prisoner) is the gentleman I mean sure, drabby pistols were pointed to my breast.

(Pithole, whence have described the property, as established in the complaint.) The robbery is committed between four and five o'clock in the afternoon, a week ago last Sunday.

Cross examined by Mr. Guthrie; I started one and a half miles west of the Shaffer flat, on the Sunday when I was robbed. I walked about two miles before I encountered this man The roads were not particularly muddy I looked at my watch when I left home I think it was about half past three o'clock I stopped to talk with a Mr. Adams Took a drink I then got a dipper at the house, and went to a spring I took the dipper back Don't know how fast I walked I did not stop there more than twenty minutes The man was dressed in a black coat, worn a black cloth cap and pants I was examined before Justice Strowbridge I said then that his mustaches were black He was shaved close I had described the man to the Police at Titusville They said there was a man in a store on Spring street answering the description I gave I am sure this is the man The robbery lasted five or ten minutes I was cool I took a good look at the man I noticed the back of his head The prisoner was before Squire Strowbridge on this same charge—and was let off

Re direct The robbery was committed on the Titusville side of the bridge, at the foot of the Griffith hill

L D Phelps, sworn for the prosecution, deposed and said I saw Darrow on Sunday week passing house I live on the Miller farm road, opposite the Rebecca Nursery in the meadow I think the time was about three o'clock I fix this hour because it was my usual tea time I had walked out on my stoop I saw the defendant on the road, passing up He had on a dark brown coat and black pants, and a black cap I saw nothing more of him that day On returning from the examination on Saturday last, I was in the wagon with Darrow, in company with the police, and Darrow said he had dyed his whiskers We were talking about coloring whiskers

Cross examined I live one quarter of a mile from Titusville, in the borough The man I took for Darrow was three or four rods distant when I saw him There was nothing to call my attention to him particularly There was a man in Titusville who resembled Darrow, except his complexion was pale marked I could tell the difference between this man and Darrow when I saw him in the road

Re direct The man I saw described in the paper more nearly the description of the man I saw in the road and on the wagon—not Darrow

Mr Guthrie—Is you not be mistaken?

Witness—I may be mistaken but I think not

Charles Connell sworn, says On Friday last I went into the saloon with Mansfield, and Darrow was there, eating oysters Mansfield said he was the man who robbed him I called Darrow out of the dining room, and asked him if he knew Mansfield Darrow made no reply to my question, but went up to Mansfield and turned him round, and said, "Jesus Christ" this is the man who had six bullets put through him" Darrow afterward said he had never seen Mansfield before Mr Walsh and Mr Pastories were also present Darrow said, on his way back from Cherry Tree, on Saturday, that he had colored his whiskers and that the dye would wash off easily

Cross examined Darrow was not particularly intoxicated when I arrested him He has been under the influence of liquor ever since he has been in my custody I had no warrant for the arrest of Darrow

Question by Mr Guthrie—Have you taken an active part in arresting this man?

Objected to as irrelevant

Objection sustained

I did not instigate the second arrest The warrant was handed me by Squire Burgess I did not ask Mansfield to have him arrested

Michael Walsh, on behalf of the prosecution, being sworn, said I was present in the saloon when Mansfield and Darrow came together Mr Connell did not want to arrest Darrow until Mansfield had identified him, So Connell called Darrow out from the table, where he was eating oysters, for Mansfield to see him Mr Connell asked Darrow if he knew Mansfield Darrow said nothing but went up and throwing back Mansfield's coat, said, with an oath, "This is the man who had six bullets put through him" Mr Connell then asked Mansfield if Darrow was the man who robbed him Mansfield said he was Mr Connell then took Darrow in custody till a warrant could be procured I did not hear the remark about the coloring of the whiskers I sat in the front seat of the wagon

Cross Examined, Darrow asked the crowd to take a drink, when Mr Connell called him out

The prosecution here rested

The defendant proposed to call witnesses for the defense, to which the counsel of the Commonwealth objected Mr Guthrie contended that the defendant had a right to be heard

Mr McCallister maintained that it was the province of the justice simply to ascertain whether a crime had been committed, and whether there was a reasonable probability of the guilt of the accused, that it was not the province of the justice to investigate and determine conflicting testimony

Objection overruled, and defendant permitted to offer evidence

Geo H Stewart sworn—Says I have known defendant 4 years Saw him on the day referred to, (Sunday) about half past 3 o'clock, on Walnut near Perry street Spoke to him He wore what Don't recollect the clothing He had a compassion. Didn't know him

Thomas Bingham sworn—Saw D on the Sunday referred to, about 3 o'clock on the rail road track, on Franklin street He had a companion Didn't know him Took a chew of tobacco from D He had on a hat and brown coat

Cross examined—I watched D till he passed down past Mechanic street The other man with him had no whiskers, and was a good deal older Had dark clothes on

Mr Hoppaugh being sworn, said I saw Darrow three times on that Sunday, once in the morning, next about half past one or two o'clock, near the Post Office, and last about five o'clock, before I went to tea I was going to the stable Said Darrow about twenty minutes I then went to supper to Pomeroy's Hotel The lamps were then lighted Each time the prisoner had a slouch hat on The last time he was with ladies and gentlemen

John Hurd sworn, said I am thirteen years old

Q What is the consequence of swearing false? A Going to hell and jail I suppose I have heard the people say so

I blacked Darrow's boots between three and five o'clock on that Sunday afternoon at the clothing store, on Spring street

J H Burton sworn, said I walked with Darrow on Spring street on the Sunday afternoon referred to It was about four o'clock in the afternoon He had on a slouch hat

The testimony being closed, Mr Guthrie addressed the Court Books were full of cases of innocent men being convicted and even hung on circumstantial evidence, and the really guilty party afterward being found It was the easiest thing in the world to be mistaken as to the identity of persons If Darrow had meditated this crime, he would have disguised himself, or would have quit the town immediately afterward No property lost by the complainant had been found on the prisoner. That was the main proof in these cases Darrow was his own worst witness—a good workman, but addicted to drink The evidence showed that he was in Titusville at or about the time, and he could not have gone out of the town and committed this crime and returned in so short a time Better that ten guilty men should escape than one innocent person be punished He was not in favor of mob law, but if a robber was caught he ought to be strung up at the first tree—but be careful and get the guilty man, and no other

Mr McCallister said Everybody knew that highway robberies were of common occurrence in these parts now a days Public sentiment demanded an investigation, and public justice would not be satisfied if a man, against whom there was such positive evidence of guilt, was not committed, in order that a jury might decide upon his innocence or guilt The complainant's testimony was clear and consistent and positive as to the identity of the accused In his struggle with the prisoner, he had an opportunity to examine him closely Phelps knew the defendant well and he was equally positive There was no contradiction in the case An alibi must be clear and definite as to time Admitting all the defendant's witnesses testified here, it was possible for Darrow to have committed this crime at the time and place mentioned They contradicted themselves as to the defendant's dress It was very easy for the prisoner to have had a cap in his hat, or a black coat under his brown one It had been said by the prisoner's counsel, that it was better that ten guilty men should escape than one innocent man be punished This was not a punishment sought for on this examination It was merely preliminary to an indictment and trial, which was to determine the guilt or innocence of the accused, and award punishment if need be It was the duty of Justice to hold a prisoner on probable cause, and nothing more was asked at the hands of his Honor

We are compelled to condense into this imperfect sketch the remarks of counsel, which were listened to with close attention by as large an audience as the room would contain

In conclusion, Justice Connelly decided that he should hold the prisoner, and require bail in the sum of $5,000 for his appearance at the next Quarter Sessions

The prisoner in default of bail was committed to jail, brought to Titusville and lodged in the lock up till this A M, when he will be conveyed to the county jail

The public will fully appreciate the services rendered by Chief Cannell, I Davis and his assistants in investigating this crime, and bringing its suspected perpetrator to legal trial and conviction

They have displayed a commendable zeal, vigilance and perseverance in this affair that shows that they are "live men" and are deterred in the execution of their invidious duties by neither fear nor favor

We have neither time nor space for further comments to day

Robbery.—Mr O E Williams, the agent of the Atlantic & Great Western Railroad Company, at Corry, had his pants stolen from his room on Sunday evening, with the keys of the Company's safe in one of the pockets Yesterday morning it was discovered that the robbers had entered the Company's office, and, using the key to open the safe, extracted about $3 000 in money The robbers escaped The pants were found on a stump near Tilton's House

Transfer Again.—We understand oil has been struck on the Honeoye Creek 10 miles below the Sheffield Depot, on the P & E Rail Road, on the property of the Forest County Petroleum Company On Saturday, the gas, oil and water, spouted up above the mouth of the pump Mr Bayley, of this town who is agent for the company, went over yesterday to take the well We are glad to hear such good news from the Tanner in

Our subscribers who get their papers by mail will notice that their address is *printed* in each individual case and that where a *date* is added it indicates when the subscription expires Quite a number may wonder why their name is not affixed to their address,—it is because they are in arrears We shall be glad to add the figures "Short settlements make long friends"

Rocker Farm.—We learn that No 108, on the Rocker farm, has began to show its quality to the work of about four hundred barrels per day The refining and new steel bagging done last week, was well worth doing For us have more good news from the celebrated Rocker farm

We call the attention of those of our readers who are looking out for bargains in city lots and set out engines to Mr Williamson's advertisement in another columns Mr Williamson is stopping at Mr E G Kluge, Walnut street, near Perry street

Mr Samuel Barrett will make collections for subscriptions for this paper this week Our readers will please bear in mind that by paying quarterly in advance, ($2 50) they have the benefit of the yearly rate if by the month, $1 00

This Month of Roses is the most fragrant month in the calendar for it has more sweet and flower like feeling But remember ladies with Phalon's Night Blooming Cereus on your toilet you can have every perfume than June flowers except the new mown Hay Sold everywhere
